REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The present invention relates to a method and apparatus for decoding video signals that supports field estimation motion compensation. The prior art of record fails to anticipate or fails to render obviousness a video decoding method for decoding a coded picture by using at least one reference picture, wherein the coded picture contains first and second fields and the at least one reference picture exclusively contains a first field, the method comprising: a) exclusively decoding the first field of the coded picture, b) whereby the decoded picture contains motion vectors; b) determining whether the first field of the reference picture or a nonexistent second field of the reference picture is referenced; c) if the first field of the reference picture is determined to be referenced, performing a motion compensation by using the motion vectors; and if the nonexistent second field of the reference picture is determined to be referenced, correcting the motion vectors so that the corrected motion vectors extend from the first field of the reference picture to the decoded first field and performing a motion compensation by using the corrected motion vectors as specified in claims 1-5, and 7-9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
